

**SUPPLEMENTAL SPECIFICATION ON REVISIONS TO
SPECIFICATION 636 – ADJUSTMENT OF FACILITIES OF THE
PUERTO RICO AQUEDUCT AND SEWER AUTHORITY**

636-3 CONSTRUCTION REQUIREMENTS

636-3.01 General

Paragraph d. is revised to read as follows:

- d. Any work involving disconnecting existing lines in service and connection to such lines, the tapping for service connections and their incidentals shall be performed by PRASA's personnel unless otherwise specifically authorized by PRASA. The Contractor shall pay PRASA for the cost of such work. An allowance in the amount included in the proposal schedule has been allocated by the Authority for these costs. This item is named Allowance for PRASA. Upon the receipt of a certified invoice or other acceptable evidence of payment by the Contractor, the Authority will reimburse the Contractor from the monies included in such allowance. The reimbursement will include the amount paid to PRASA and any additional municipal taxes related to these works. In addition, an amount of eight percent (8%) of the PRASA's invoice amount will be paid to the Contractor for insurances, mark-up, administrative and incidental expenses, profit surcharges and other similar charges. The Contractor shall not interrupt the service, except with the written approval of PRASA, for the purpose of making actual necessary final connections to the adjusted installations or otherwise, in which case the construction operations shall be arranged by the Contractor and duly coordinated with the PRASA's representative, to take the minimum possible time.
